ABOUT ME

Currently pursuing a B.Tech in CSE (Cloud Computing) at MIT-ADT University, in my third year. I have hands-on experience deploying and debugging full-stack apps using Java, JavaScript, PHP, and MySQL, across Linux, cloud platforms (Azure, AWS), and Docker. I've taken projects from build to live deployment, handling hosting, DNS/SSL, and database integration myself. Comfortable with Git, REST APIs, and using AI coding assistants in my workflow.

SKILLS

Cloud & Deployment: AWS, Microsoft Azure, Docker, Linux, Nginx, Cloudflare, SSL/TLS, CI/CD fundamentals

Languages: JavaScript, Python, Java, C, C++, C#

Tools & Workflow: Git/GitHub, AI coding assistants, Automation, Postman

Web & APIs: HTML, CSS, PHP, Node.js, Tailwind CSS, Bootstrap, REST APIs

Databases: MySQL, SQLite, NOSQL

Core CS: DSA, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering, Software Testing

EDUCATION

B. Tech, Computer Science Engineering

MIT ADT University, Pune

Aug 2025 – Jun 2028 (Expected) | CGPA: 8.70

Diploma, Computer Science Engineering

Govt. Polytechnic College, Ujjain

Aug 2022 – Jun 2025 | CGPA: 7.94

CERTIFICATIONS

- GFG Python Skill Up
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate
- Cisco Networking Basics

LEADERSHIP & ACTIVITIES

- Campus Ambassador — Techfest, IIT Bombay (Jun 2026 – Present)
- Technical Secretary — Zone of Engineering Innovators (Feb 2026 – Present)
- Student Member — IEEE Student Branch (Feb 2026 – Present)

EXPERIENCE

Cloud Computing Intern | CodeAlpha · Remote, India

May 2026 – Jun 2026

- Worked hands-on with cloud deployment workflows on Linux and Microsoft Azure configuring Nginx, Cloudflare, and SSL, and wiring up database integration for production hosting.
- Took two applications from build through live deployment a Smart Bus Pass System and an AI Chatbot Platform debugging hosting and configuration issues until each worked reliably end-to-end.

Java Trainee | Thinking Machines E-Learning Center · Ujjain, India

Aug 2024 – Oct 2025

- Trained in Core and Advanced Java (OOP, JDBC, servlets, file I/O) and built backend mini-projects with database connectivity, strengthening debugging and problem-solving skills.

Front-End Development Intern | Allsoft Infotech & Multimedia Pvt. Ltd. · Ujjain, India

Nov 2024 – Jan 2025

- Built and debugged responsive, cross-browser web layouts with HTML/CSS, aligning front-end code with backend systems and accessibility standards.

Web Development Intern | Manal Softech Pvt. Ltd. · Ujjain, India

Mar 2023 – Jun 2023

- Built responsive websites with HTML, CSS, and JavaScript, and collaborated on backend integration and cross-browser compatibility testing.

Student Trainee | Programmers Point Software Training Institute · Ujjain, India

2022 – Mar 2023

- Built a foundation in C and C++ pointers, memory management, and OOPs through hands-on, problem-solving-focused training.

PROJECTS

Smart Bus Pass System | Cloud Deployment

May 2026

- Deployed a cloud-hosted bus pass management platform during the CodeAlpha internship using Azure, Nginx, and SSL, debugging config until the live flow worked end-to-end.

Live: smart-bus-pass-system.pages.dev

AI Chatbot Platform | Cloud Deployment

Jun 2026

- Built and deployed a login-enabled AI chatbot platform with secure cloud hosting and database integration, verifying the full login-to-chat flow before handoff.

Live: ai-chatbot-system-by-rishabhkankariya.pages.dev

Student-Institute Portal | Full-Stack Web Application

2023

- Developed a student-institute portal with registration management, document verification, admin approval workflows, and editable post-review student data.
- Built using HTML, CSS, JavaScript, PHP, and MySQL with emphasis on usability, security, and scalability; implemented dashboards for students and admins.

Live: <https://ekitabhghar-project.onrender.com/>

Personal Portfolio Website | Front-End Project

2024

- Designed and deployed a modern, responsive personal portfolio with Tailwind CSS, AOS/Lottie animations, and a dark mode toggle.
